Course and Examination Regulations
Valid from 1 September 2012

Programme-specific section
Master’s Programme: Linguistics (research)

These course and examination regulations have been drawn up in accordance with Section 7.13 of the Higher Education and Research Act [Wet op het hoger onderwijs en wetenschappelijk onderzoek] (WHW) (henceforth the Act) and additional quality marks as set out in the framework document Leiden University Register of Study Programmes [Leids universitair register opleidingen].

Pursuant to Section 7.14 of the Act the Faculty Board regularly evaluates the course and examination regulations and assesses, for the purpose of monitoring and, if necessary, adjusting the study load, the time it takes students to comply with the regulations. In conformity with Section 9.18 of the Act, the department teaching committee is assigned the task of annually assessing how the course and examination regulations are implemented.

These course and examination regulations consist of two sections: a general section that is the same for all programmes and a section that contains specific information for a particular programme. This programme-specific section forms a whole with the general section and only contains those articles with content that is specific to a particular programme.
